2020 VINTAGE FEATURES

We are going to remember this year; we started 2020 in a bubble, not ready for what it had in store for all of us. The world stopped, Nature found silence and harmony: in spring, there was a wonderful blooming among vineyards, where I loved running with my eldest daughter Vittoria.

Harvest took place in a quiet environment: balance was the key. The Bron & Ruseval wine confirms its straightforward elegance and structure in 2020. It is never above the lines, it takes you by hand to discover a terroir-driven Sangiovese.
